HIGHWAY MAP FUNCTIONAL CLASSIFICATION

-  Principal Arterial - Other
-  Freeways and Expressway
-  Principal Arterial - Other
-  Minor Arterial
-  Major Collector
-  Minor Collector
-  Local

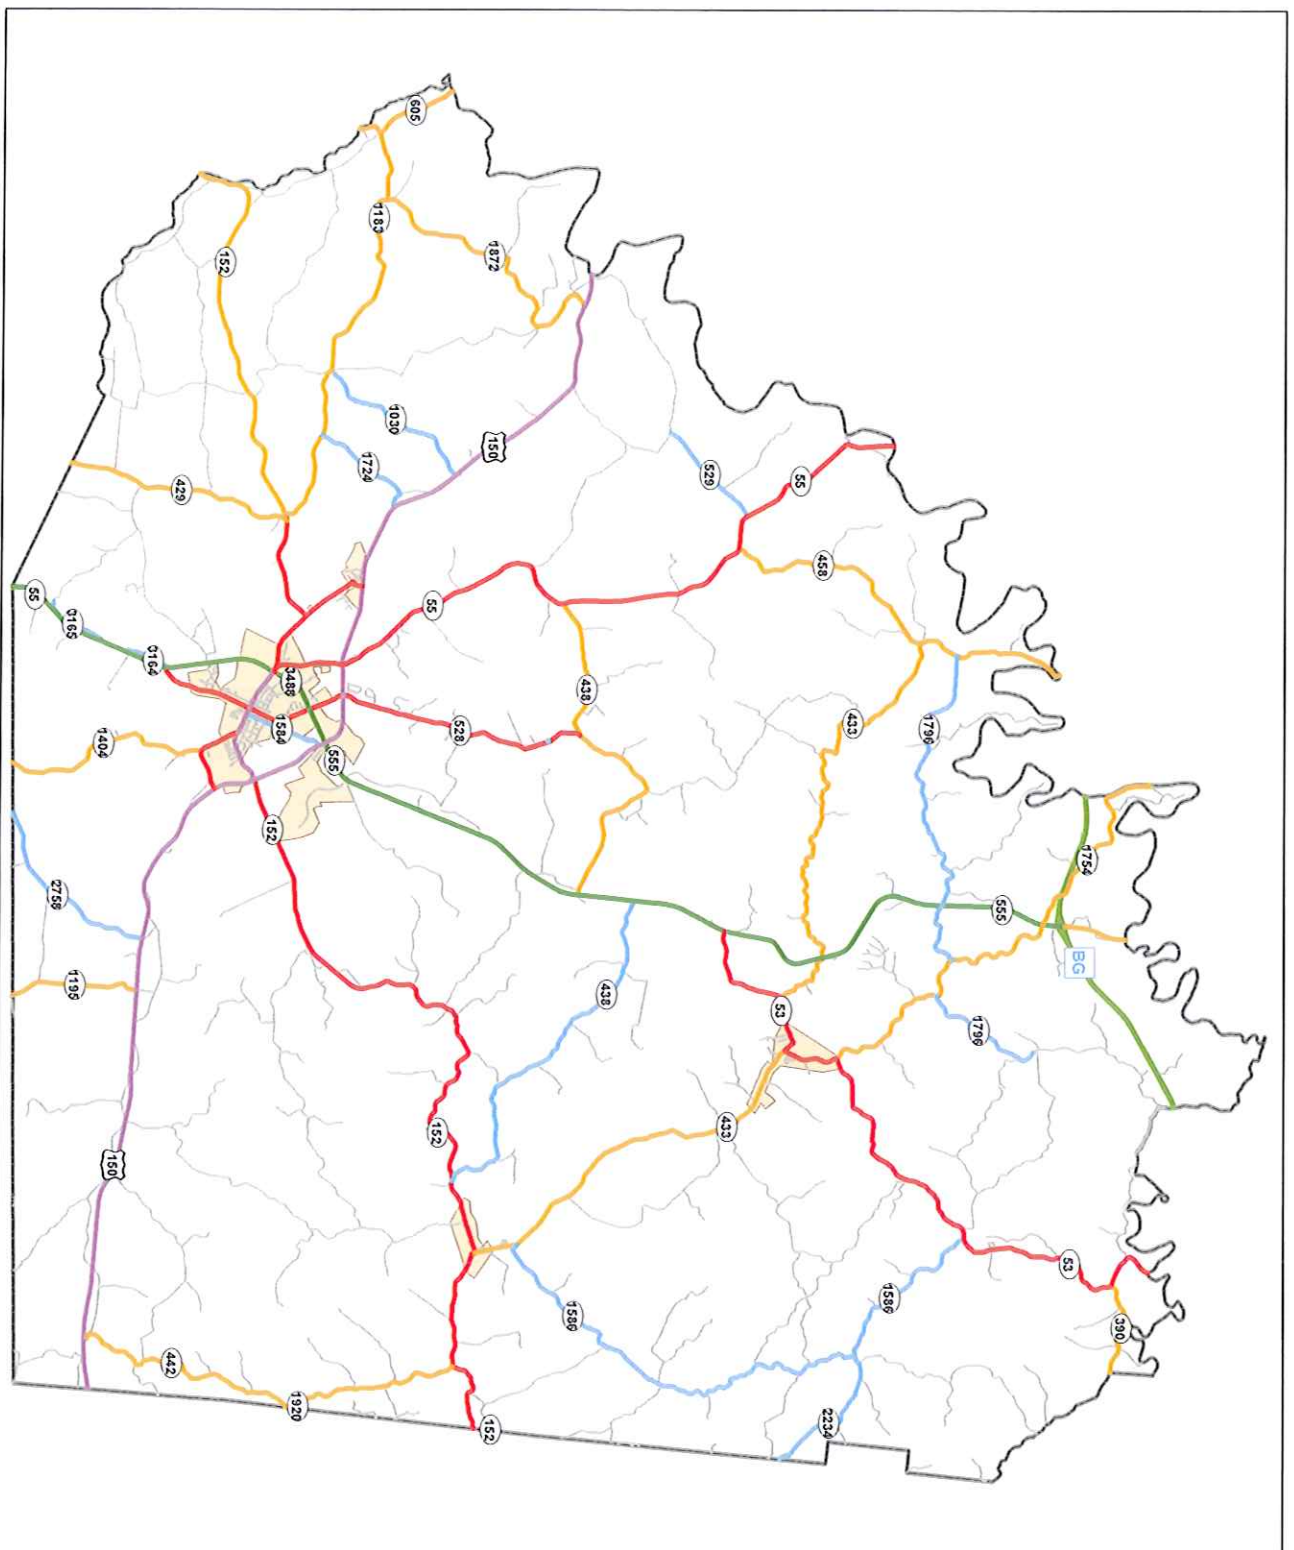

Source: KYTC, 2019

The Functional Classification map allows customers to understand how the different roadway segments make up an interdependent hierarchical network of arterial, collector, and local roads for efficiently moving traffic through the system. It also helps planners and engineers increase travel efficiency and cost effectiveness as they design, build, and maintain these roads.
